

The Telford Langley School
ENSURING EXCELLENCE

Online Safety Policy

Approved: Autumn 2024

Online Safety Policy

Policy Name:	Online Safety Policy
Policy Owner:	Mr Kevin Preece, Deputy Headteacher
Last Reviewed:	Autumn 2022
Policy Approved \ Ratified by:	School Standards Committee
Term Policy Approved:	Autumn 2024
Next Review Due:	Autumn 2026
Document Version:	3.0

Contents

1. Introduction	2
2. Policy and leadership	5
3. Policy	10

1. Introduction

The requirement that learners can use digital technologies appropriately and safely is addressed as part of the wider duty of care to which all who work in schools are bound. Schools must, through their Online Safety Policy, meet their statutory obligations to ensure that learners are safe and are protected from potential harm, both on and off-site. It will also form part of the school's protection from legal challenge, relating to the use of digital technologies.

The DfE Keeping Children Safe in Education statutory guidance requires Local Authorities, Multi Academy Trusts, and schools in England to ensure learners are safe from harm:

*"It is essential that children are safeguarded from potentially harmful and inappropriate online material. An effective whole school and college approach to **online safety** empowers a school or college to protect and educate pupils, students, and staff in their use of technology and establishes mechanisms to identify, intervene in, and escalate any concerns where appropriate"*

*"Governing bodies and proprietors should ensure **online safety** is a running and interrelated theme whilst devising and implementing their whole school or college approach to safeguarding and related policies and procedures. This will include considering how **online safety** is reflected as required in all relevant policies and considering online safety whilst planning the curriculum, any teacher training, the role and responsibilities of the designated safeguarding lead (and deputies) and any parental engagement"*

The DfE Keeping Children Safe in Education guidance also recommends:

***Reviewing online safety** ... Technology, and risks and harms related to it, evolve, and change rapidly. Schools and colleges should consider carrying out an annual review of their approach to online safety, supported by an annual risk assessment that considers and reflects the risks their children face. (Risk assessment completed using 360 online tool)*

Scope of the Online Safety Policy

This Online Safety Policy outlines the commitment of The Telford Langley School to safeguard members of our school community online in accordance with statutory guidance and best practice.

This Online Safety Policy applies to all members of the school community (including staff, learners, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

The Telford Langley School will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

Policy development, monitoring and review

This Online Safety Policy has been developed by the Online Safety Group made up of:

- headteacher/senior leaders
- online safety lead
- staff – including teachers/support staff/technical staff
- governors
- parents and carers

Schedule for development, monitoring and review

This Online Safety Policy was approved by the <i>school governing body</i> on:	
The implementation of this Online Safety Policy will be monitored by:	Online safety lead, senior leadership team, Online Safety Group
Monitoring will take place at regular intervals:	<i>Annually</i>
The <i>governing body</i> will receive a report on the implementation of the Online Safety Policy generated by the monitoring group (which will include anonymous details of online safety incidents) at regular intervals:	<i>Annually</i>
The Online Safety Policy will be reviewed annually, or more regularly in the light of any significant new technological developments, new threats to online safety or incidents that have taken place. The next anticipated review date will be:	<i>Jan 2027</i>
Should serious online safety incidents take place, the following external persons/agencies should be informed:	LA safeguarding officer, police etc

Process for monitoring the impact of the Online Safety Policy

The school will monitor the impact of the policy using:

- logs of reported incidents
- monitoring logs of internet activity (including sites visited)
- internal monitoring data for network activity
- surveys/questionnaires of:
 - learners
 - parents and carers
 - staff.

2. Policy and leadership

Responsibilities

To ensure the online safeguarding of members of our school community it is important that all members of that community work together to develop safe and responsible online behaviours, learning from each other and from good practice elsewhere, reporting inappropriate online behaviours, concerns, and misuse as soon as these become apparent. While this will be a team effort, the following sections outline the online safety roles and responsibilities of individuals and groups within the school.

Headteacher and senior leaders

- The headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community and fostering a culture of safeguarding, though the day-to-day responsibility for online safety may be delegated to the Online Safety Lead.
- The headteacher and (at least) another member of the senior leadership team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff.
- The headteacher/senior leaders are responsible for ensuring that the Online Safety Lead, technical staff, and other relevant staff carry out their responsibilities effectively and receive suitable training to enable them to carry out their roles and train other colleagues, as relevant.
- The headteacher/senior leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role.

Governors

The DfE guidance “Keeping Children Safe in Education” states:

“Governing bodies and proprietors should ensure there are appropriate policies and procedures in place in order for appropriate action to be taken in a timely manner to safeguard and promote children’s welfare this includes ... online safety”

“Governing bodies and proprietors should ensure an appropriate senior member of staff, from the school or college leadership team, is appointed to the role of designated safeguarding lead. The designated safeguarding lead should take lead responsibility for safeguarding and child protection (including online safety and understanding the filtering and monitoring systems and processes in place)”

Governors are responsible for the approval of the Online Safety Policy and for reviewing the effectiveness of the policy

This review will be carried out by the Online Safety Group whose members will receive regular information about online safety incidents and monitoring reports. A member of the governing body will take on the role of Online Safety Governor to include:

- regular meetings with the Designated Safeguarding Lead
- regularly receiving (collated and anonymised) reports of online safety incidents

- checking that provision outlined in the Online Safety Policy (e.g. online safety education provision and staff training is taking place as intended)
- Ensuring that the filtering and monitoring provision is reviewed and recorded, at least annually.
- reporting to relevant governors group/meeting
- Receiving (at least) basic cyber-security training to enable the governors to check that the school meets the DfE Cyber-Security Standards

The governing body will also support the school in encouraging parents/carers and the wider community to become engaged in online safety activities.

Designated Safeguarding Lead

Keeping Children Safe in Education states that:

“The designated safeguarding lead should take lead responsibility for safeguarding and child protection (including online safety and understanding the filtering and monitoring systems and processes in place). This should be explicit in the role holder’s job description.”

They (the DSL) “are able to understand the unique risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online at school or college”

They (the DSL) “can recognise the additional risks that children with special educational needs and disabilities (SEND) face online, for example, from bullying, grooming and radicalisation and are confident they have the capability to support children with SEND to stay safe online”

The DSL will:

- hold the lead responsibility for online safety, within their safeguarding role.
- Receive relevant and regularly updated training in online safety to enable them to understand the risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online
- meet regularly with the safeguarding governor to discuss current issues, review (anonymised) incidents and filtering and monitoring logs and ensuring that annual (at least) filtering and monitoring checks are carried out
- attend relevant governing body meetings/groups
- report regularly to headteacher/senior leadership team
- be responsible for receiving reports of online safety incidents and handling them, and deciding whether to make a referral by liaising with relevant agencies, ensuring that all incidents are recorded.
- liaise with staff and IT providers on matters of safety and safeguarding and welfare (including online and digital safety)

Curriculum Leads

Curriculum Leads will work with the Designated Safeguarding Lead to develop a planned and coordinated online safety education programme.

This will be provided through:

- a discrete programme
- RSHE programmes
- A mapped cross-curricular programme
- assemblies and pastoral programmes
- through relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week.

Teaching and support staff

School staff are responsible for ensuring that:

- they have an awareness of current online safety matters/trends and of the current school Online Safety Policy and practices
- they understand that online safety is a core part of safeguarding
- they have read, understood, and signed the staff acceptable use agreement (AUA)
- they immediately report any suspected misuse or problem to Mr Preece (DSL) for investigation/action, in line with the school safeguarding procedures
- all digital communications with learners and parents/carers should be on a professional level and only carried out using official school systems
- online safety issues are embedded in all aspects of the curriculum and other activities
- ensure learners understand and follow the Online Safety Policy and acceptable use agreements, have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they supervise and monitor the use of digital technologies, mobile devices, cameras, etc., in lessons and other school activities (where allowed) and implement current policies regarding these devices
- in lessons where internet use is pre-planned learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where lessons take place using live-streaming or video-conferencing, staff must have full regard to national safeguarding guidance (As per the Staff Teams guidance)
- have a zero-tolerance approach to incidents of online-bullying, sexual harassment, discrimination, hatred etc
- they model safe, responsible, and professional online behaviours in their own use of technology, including out of school and in their use of social media.

IT Provider

The DfE Filtering and Monitoring Standards says:

“Senior leaders should work closely with governors or proprietors, the designated safeguarding lead (DSL) and IT service providers in all aspects of filtering and

monitoring. Your IT service provider may be a staff technician or an external service provider.”

“Day to day management of filtering and monitoring systems requires the specialist knowledge of both safeguarding and IT staff to be effective. The DSL should work closely together with IT service providers to meet the needs of your setting. You may need to ask filtering or monitoring providers for system specific training and support.”

“The IT service provider should have technical responsibility for:

- maintaining filtering and monitoring systems*
- providing filtering and monitoring reports*
- completing actions following concerns or checks to systems”*

“The IT service provider should work with the senior leadership team and DSL to:

- procure systems*
- identify risk*
- carry out reviews*
- carry out checks”*

“We are aware that there may not be full-time staff for each of these roles and responsibility may lie as part of a wider role within the school, college, or trust. However, it must be clear who is responsible, and it must be possible to make prompt changes to your provision.”

If the school has a technology service provided by an outside contractor, it is the responsibility of the school to ensure that the provider carries out all the online safety measures that the school’s obligations and responsibilities require. It is also important that the provider follows and implements school Online Safety Policy and procedures.

The IT Provider is responsible for ensuring that:

- they are aware of and follow the school Online Safety Policy and Technical Security Policy to carry out their work effectively in line with school policy
- the school technical infrastructure is secure and is not open to misuse or malicious attack
- the school meets (as a minimum) the required online safety technical requirements as identified by the DfE Meeting Digital and Technology Standards in Schools & Colleges and guidance from local authority / MAT or other relevant body
- there is clear, safe, and managed control of user access to networks and devices
- they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- the use of technology is regularly and effectively monitored in order that any misuse/attempted misuse can be reported to (insert relevant person) for investigation and action

- the filtering policy is applied and updated on a regular basis and its implementation is not the sole responsibility of any single person (see appendix 'Technical Security Policy template' for good practice).
- monitoring systems are implemented and regularly updated as agreed in school policies

Learners

- are responsible for using the school digital technology systems in accordance with the learner acceptable use agreement and Online Safety Policy
- should understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- should know what to do if they or someone they know feels vulnerable when using online technology
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the school's Online Safety Policy covers their actions out of school, if related to their membership of the school.

Parents and carers

Parents and carers play a crucial role in ensuring that their children understand the need to use the online services and devices in an appropriate way.

The school will take every opportunity to help parents and carers understand these issues through:

- publishing the school Online Safety Policy on the school website
- publish information about appropriate use of social media relating to posts concerning the school
- seeking their permissions concerning digital images, cloud services etc
- parents'/carers' evenings, newsletters, website, social media and information about national/local online safety campaigns and literature.

Parents and carers will be encouraged to support the school in:

- reinforcing the online safety messages provided to learners in school
- the use of their children's personal devices in the school (where this is allowed)

Online Safety Group

The Online Safety Group has the following members

- Online Safety Lead
- Designated Safeguarding Lead
- Senior leaders
- Online safety governor
- Technical staff
- Teacher and support staff members
- Learners (Under review)
- Parents/carers (As part of governor role)

Members of the Online Safety Group will assist the Online Safety Lead with:

- the production/review/monitoring of the school Online Safety Policy/documents

- the production/review/monitoring of the school filtering and requests for filtering changes
- mapping and reviewing the online safety education provision – ensuring relevance, breadth and progression and coverage
- reviewing network/filtering/monitoring/incident logs, where possible
- encouraging the contribution of learners to staff awareness, emerging trends and the school online safety provision
- consulting stakeholders – including staff/parents/carers about the online safety provision
- monitoring improvement actions identified through use of the 360-degree safe self-review tool.

An Online Safety Group terms of reference template can be found in the appendices.

Professional Standards

There is an expectation that required professional standards will be applied to online safety as in other aspects of school life i.e., policies and protocols are in place for the use of online communication technology between the staff and other members of the school and wider community, using officially sanctioned school mechanisms.

3. Policy

Online Safety Policy

The school Online Safety Policy:

- sets expectations for the safe and responsible use of digital technologies for learning, administration, and communication
- allocates responsibilities for the delivery of the policy
- is regularly reviewed in a collaborative manner, taking account of online safety incidents and changes/trends in technology and related behaviours
- establishes guidance for staff in how they should use digital technologies responsibly, protecting themselves and the school and how they should use this understanding to help safeguard learners in the digital world
- describes how the school will help prepare learners to be safe and responsible users of online technologies
- establishes clear procedures to identify, report, respond to and record the misuse of digital technologies and online safety incidents, including external support mechanisms
- is supplemented by a series of related acceptable use agreements
- is made available to staff at induction and through normal communication channels
- is published on the school website.

Acceptable use

The school has defined what it regards as acceptable/unacceptable use and this is shown in the tables below.

Acceptable use agreements

The Online Safety Policy and acceptable use agreements define acceptable use at the school. The acceptable use agreements will be communicated/re-enforced through:

- staff induction and handbook
- digital signage
- posters/notices around where technology is used
- communication with parents/carers
- built into education sessions
- school website

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not access online content (including apps, games, sites) to make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	Any illegal activity for example: <ul style="list-style-type: none"> • Child sexual abuse imagery* • Child sexual abuse/exploitation/grooming • Terrorism • Encouraging or assisting suicide • Offences relating to sexual images i.e., revenge and extreme pornography • Incitement to and threats of violence • Hate crime • Public order offences - harassment and stalking • Drug-related offences • Weapons / firearms offences • Fraud and financial crime including money laundering 					X
Users shall not undertake activities that might be classed as cyber-crime under the Computer Misuse Act (1990)	<ul style="list-style-type: none"> • Using another individual's username or ID and password to access data, a program, or parts of a system that the user is not authorised to access (even if the initial access is authorised) • Gaining unauthorised access to school networks, data and files, through the use of computers/devices • Creating or propagating computer viruses or other harmful files • Revealing or publicising confidential or proprietary information (e.g., financial / personal information, databases, computer / network access codes and passwords) 					X

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
	<ul style="list-style-type: none"> Disable/Impair/Disrupt network functionality through the use of computers/devices Using penetration testing equipment (without relevant permission) 					

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not undertake activities that are not illegal but are classed as unacceptable in school policies:	Accessing inappropriate material/activities online in a school setting including pornography, gambling, drugs. (Informed by the school's filtering practices and/or AUAs)			X	X	
	Promotion of any kind of discrimination				X	X
	Using school systems to run a private business				X	
	Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school				X	
	Infringing copyright				X	X
	Unfair usage (downloading/uploading large files that hinders others in their use of the internet)			X	X	
	Any other information which may be offensive to others or breaches the integrity of the ethos of the school or brings the school into disrepute				X	

Consideration should be given for the following activities when undertaken for non-educational purposes: Schools may wish to add further activities to this list.	Staff and other adults				Learners			
	Not allowed	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission/awareness
Online gaming	X				X			
Online shopping/commerce	X				X			
File sharing		X			X			
Social media		X			X			
Messaging/chat		X			X			
Entertainment streaming e.g. Netflix, Disney+		X			X			
Use of video broadcasting, e.g. YouTube, Twitch, TikTok		X			X			
Mobile phones may be brought to school		X				X		
Use of mobile phones for learning at school		X						X
Use of mobile phones in social time at school		X				X		
Taking photos on mobile phones/cameras (Not pictures of Teachers or students)		X						X
Use of school e-mail for personal e-mails	X				X			

When using communication technologies, the school considers the following as good practice:

- when communicating in a professional capacity, staff should ensure that the technologies they use are officially sanctioned by the school
- any digital communication between staff and learners or parents/carers (e-mail, social media, learning platform, etc.) must be professional in tone and content. Personal e-mail addresses, text messaging or social media must not be used for these communications.
- staff should be expected to follow good practice when using personal social media regarding their own professional reputation and that of the school and its community
- users should immediately report to Mr Preece if they are in receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication
- relevant policies and permissions should be followed when posting information online e.g., school website and social media. Only school e-mail addresses should be used to identify members of staff and learners.

Reporting and responding

The 2021 Ofsted “Review of Sexual Abuse in Schools and Colleges” highlighted the need for schools to understand that reporting systems do not always respond to the needs of learners. While the report looks specifically at harmful sexual behaviours, schools may wish to address these issues more generally in reviewing their reporting systems. The Ofsted review suggested:

“School and college leaders should create a culture where sexual harassment and online sexual abuse are not tolerated, and where they identify issues and intervene early to better protect children and young people. ..In order to do this, they should assume that sexual harassment and online sexual abuse are happening in their setting,

even when there are no specific reports, and put in place a whole-school approach to address them. This should include:

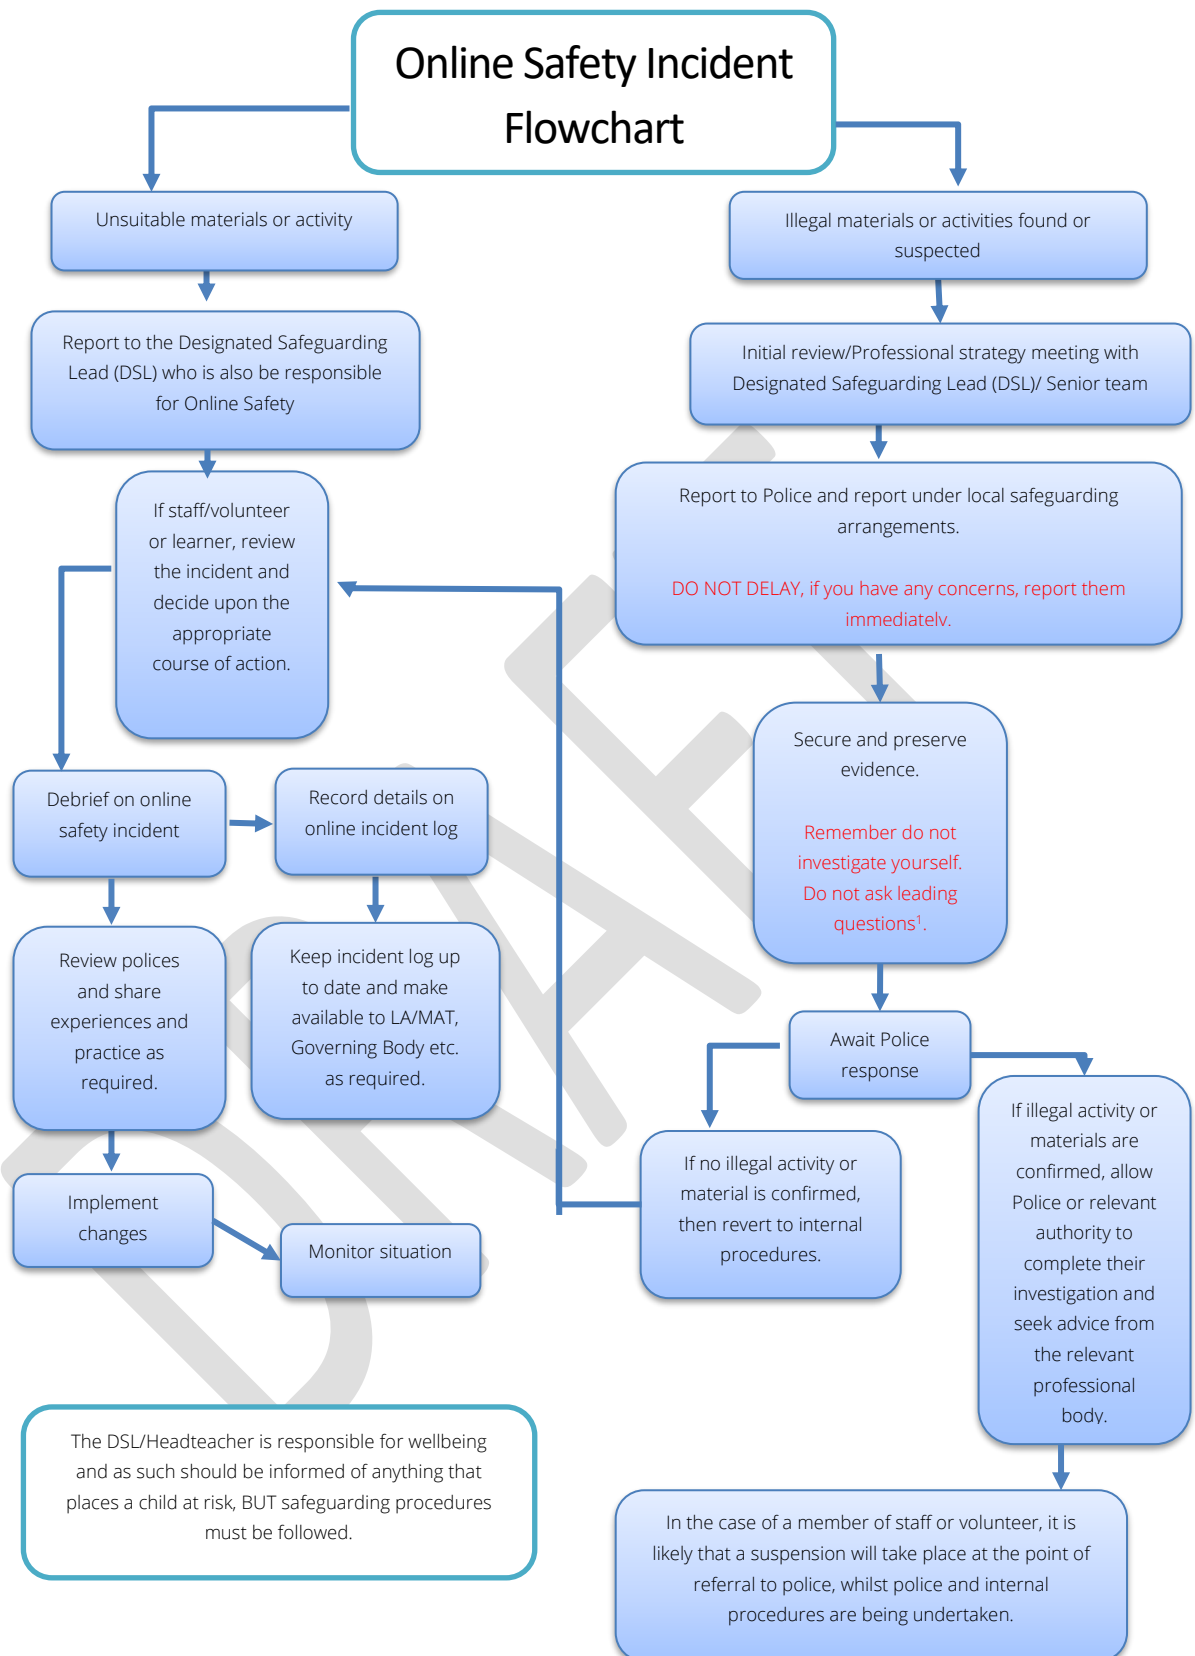

- *routine record-keeping and analysis of sexual harassment and sexual violence, including online, to identify patterns and intervene early to prevent abuse”*

The school will take all reasonable precautions to ensure online safety for all school users but recognises that incidents may occur inside and outside of the school (with impact on the school) which will need intervention. The school will ensure:

- there are clear reporting routes which are understood and followed by all members of the school community which are consistent with the school safeguarding procedures, and with the whistleblowing, complaints and managing allegations policies.
- all members of the school community will be made aware of the need to report online safety issues/incidents
- reports will be dealt with as soon as is practically possible once they are received
- the Designated Safeguarding Lead, Online Safety Lead and other responsible staff have appropriate skills and training to deal with online safety risks.
- if there is any suspicion that the incident involves any illegal activity or the potential for serious harm, the incident must be escalated through the agreed school safeguarding procedures.
- any concern about staff misuse will be reported to the Headteacher, unless the concern involves the Headteacher, in which case the complaint is referred to the Chair of Governors and the local authority / MAT
- where there is no suspected illegal activity, devices may be checked using the following procedures:
 - one or more senior members of staff should be involved in this process. This is vital to protect individuals if accusations are subsequently reported.
 - conduct the procedure using a designated device that will not be used by learners and, if necessary, can be taken off site by the police should the need arise (should illegal activity be subsequently suspected). Use the same device for the duration of the procedure.
 - ensure that the relevant staff have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
 - record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed, and attached to the form
 - once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
 - internal response or discipline procedures
 - involvement by local authority / MAT (as relevant)
 - police involvement and/or action
- it is important that those reporting an online safety incident have confidence that the report will be treated seriously and dealt with effectively

- there are support strategies in place e.g., peer support for those reporting or affected by an online safety incident
- incidents should be logged
- relevant staff are aware of external sources of support and guidance in dealing with online safety issues, e.g. local authority, police, professionals online safety helpline, CEOP
- those involved in the incident will be provided with feedback about the outcome of the investigation and follow up actions
- learning from the incident (or pattern of incidents) will be provided to:
 - the Online Safety Group for consideration of updates to policies or education programmes and to review how effectively the report was dealt with
 - staff, through regular briefings
 - learners, through assemblies/lessons
 - parents/carers, through newsletters, school social media, website
 - governors, through regular safeguarding updates
 - local authority/external agencies, as relevant

The school will make the flowchart below available to staff to support the decision-making process for dealing with online safety incidents.

School actions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures as follows:

DRAFT

Responding to Learner Actions

Incidents	Refer to class teacher/tutor	Refer to Head of Department / Principal Teacher / Deputy Head	Refer to Headteacher	Refer to Police/Social Work	Refer to local authority technical support for advice/action	Inform parents/carers	Remove device/ network/internet access rights	Issue a warning	Further sanction, in line with behaviour policy
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on User Actions on unsuitable/inappropriate activities).		X		X		x	x		x
Attempting to access or accessing the school network, using another user's account (staff or learner) or allowing others to access school network by sharing username and passwords		X					X	X	
Corrupting or destroying the data of other users.		X				X	X	X	x
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature	X	X				X	X	X	X
Unauthorised downloading or uploading of files or use of file sharing.	X	X				X	X	X	X
Using proxy sites or other means to subvert the school's filtering system.	X	X				X	X	X	X
Accidentally accessing offensive or pornographic material and failing to report the incident.	X	X			X	X	X	X	X
Deliberately accessing or trying to access offensive or pornographic material.		X	X	X	X	X	X	X	X

Incidents	Refer to class teacher/tutor	Refer to Head of Department / Principal Teacher / Deputy Head	Refer to Headteacher	Refer to Police/Social Work	Refer to local authority technical support for advice/action	Inform parents/carers	Remove device/ network/internet access rights	Issue a warning	Further sanction, in line with behaviour policy
Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act.	X	X				X	X	X	X
Unauthorised use of digital devices (including taking images)	X	X				X	X	X	X
Unauthorised use of online services	X	X			X	X	X	X	X
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.	X	X	X			X	X	X	X
Continued infringements of the above, following previous warnings or sanctions.	X	X	X		X	X	X	X	X

Responding to Staff Actions

Incidents	Refer to line manager	Refer to Headteacher/ Principal	Refer to local authority/MAT/HR	Refer to Police	Refer to LA / Technical Support Staff for action re filtering, etc.	Issue a warning	Suspension	Disciplinary action
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities)		X	X	X				
Deliberate actions to breach data protection or network security rules.		X			X			X
Deliberately accessing or trying to access offensive or pornographic material		X	X		X		X	X
Corrupting or destroying the data of other users or causing deliberate damage to hardware or software		X	X	X	X		X	X
Using proxy sites or other means to subvert the school's filtering system.		X			X			X
Unauthorised downloading or uploading of files or file sharing		X			X			X
Breaching copyright or licensing regulations.		X						X
Allowing others to access school network by sharing username and passwords or attempting to access or accessing the school network, using another person's account.	X				X			X

Incidents	Refer to line manager	Refer to Headteacher/ Principal	Refer to local authority/MAT/HR	Refer to Police	Refer to LA / Technical Support Staff for action re filtering, etc.	Issue a warning	Suspension	Disciplinary action
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature		X		X			X	X
Using personal e-mail/social networking/messaging to carry out digital communications with learners and parents/carers		X	X	X	X		X	X
Inappropriate personal use of the digital technologies e.g. social media / personal e-mail	X	X	X		X			X
Careless use of personal data, e.g. displaying, holding or transferring data in an insecure manner	X				X			X
Actions which could compromise the staff member's professional standing	X	X	X					X
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.	X	X					X	X
Failing to report incidents whether caused by deliberate or accidental actions	X				X			X
Continued infringements of the above, following previous warnings or sanctions.	X	X			X			X

Online Safety Education Programme

While regulation and technical solutions are particularly important, their use must be balanced by educating learners to take a responsible approach. The education of learners in online safety is therefore an essential part of the school's online safety provision. Learners need the help and support of the school to recognise and avoid online safety risks and develop their resilience.

The 2021 Ofsted “Review of Sexual Abuse in Schools and Colleges” highlighted the need for:

“a carefully sequenced RSHE curriculum, based on the Department for Education’s (DfE’s) statutory guidance, that specifically includes sexual harassment and sexual violence, including online. This should include time for open discussion of topics that children and young people tell us they find particularly difficult, such as consent and the sending of ‘nudes’..”

Keeping Children Safe in Education states:

“Governing bodies and proprietors should ensure online safety is a running and interrelated theme whilst devising and implementing their whole school or college approach to safeguarding and related policies and procedures. This will include considering how online safety is reflected as required in all relevant policies and considering online safety whilst planning the curriculum ...”

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways

- A planned online safety curriculum for all year groups matched against a nationally agreed framework e.g. Education for a Connected Work Framework by UKCIS/DCMS and regularly taught in a variety of contexts.
- Lessons are matched to need; are age-related and build on prior learning
- Lessons are context-relevant with agreed objectives leading to clear and evidenced outcomes
- Learner need and progress are addressed through effective planning and assessment
- Digital competency is planned and effectively threaded through the appropriate digital pillars in other curriculum areas e.g. PHSE; SRE; Literacy etc
- it incorporates/makes use of relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week
- the programme will be accessible to learners at different ages and abilities such as those with additional learning needs or those with English as an additional language.
- learners should be helped to understand the need for the learner acceptable use agreement and encouraged to adopt safe and responsible use both within and outside school
- staff should act as good role models in their use of digital technologies the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where learners are allowed to freely search the internet, staff should be vigilant in supervising the learners and monitoring the content of the websites the young people visit
- it is accepted that from time to time, for good educational reasons, students may need to research topics, (e.g. racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff should be able to request the

temporary removal of those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need

- the online safety education programme should be relevant and up to date to ensure the quality of learning and outcomes.

Contribution of Learners

The school acknowledges, learns from, and uses the skills and knowledge of learners in the use of digital technologies. We recognise the potential for this to shape the online safety strategy for the school community and how this contributes positively to the personal development of young people. Their contribution is recognised through:

- mechanisms to canvass learner feedback and opinion.
- appointment of digital leaders/anti-bullying ambassadors/peer mentors
- learners contribute to the online safety education programme e.g. peer education, digital leaders leading lessons for younger learners, online safety campaigns
- learners designing/updating acceptable use agreements
- contributing to online safety events with the wider school community e.g. parents' evenings, family learning programmes etc.

Staff/volunteers

The DfE guidance "Keeping Children Safe in Education" states:

"All staff should receive appropriate safeguarding and child protection training (**including online safety**) at induction. The training should be **regularly updated**. In addition, all staff should receive safeguarding and child protection (**including online safety**) updates (for example, via email, e-bulletins, and staff meetings), as required, and at least annually, to continue to provide them with relevant skills and knowledge to safeguard children effectively."

"Governing bodies and proprietors should ensure... that safeguarding training for staff, **including online safety** training, is integrated, aligned and considered as part of the whole school or college safeguarding approach and wider staff training and curriculum planning."

All staff will receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

A planned programme of formal online safety and data protection training will be made available to all staff. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly.

- the training will be an integral part of the school's annual safeguarding and data protection training for all staff
- all new staff will receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements. It includes explicit reference to classroom management,

professional conduct, online reputation, and the need to model positive online behaviours

Governors

Governors should take part in online safety training/awareness sessions, with particular importance for those who are members of any sub-committee/group involved in technology/online safety/health and safety/safeguarding. This may be offered in several ways such as:

- attendance at training provided by the local authority/MAT or other relevant organisation
- participation in school training / information sessions for staff or parents

A higher level of training will be made available to the Online Safety Governor.

Families

Many parents and carers have only a limited understanding of online safety risks and issues, yet they play an essential role in the education of their children and in the monitoring/regulation of the children's online behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school will seek to provide information and awareness to parents and carers through:

- regular communication, awareness-raising and engagement on online safety issues, curriculum activities and reporting routes
- regular opportunities for engagement with parents/carers on online safety issues through awareness workshops / parent/carer evenings etc
- the learners – who are encouraged to pass on to parents the online safety messages they have learned in lessons and by learners leading sessions at parent/carer evenings.
- letters, newsletters, website, learning platform,
- high profile events / campaigns e.g. Safer Internet Day
- reference to the relevant web sites/publications, e.g. [SWGfL](#); www.saferinternet.org.uk/; www.childnet.com/parents-and-carers
- Sharing good practice with other schools in clusters and or the local authority/MAT

Adults and Agencies

The school will provide opportunities for local community groups and members of the wider community to gain from the school's online safety knowledge and experience. This may be offered through the following:

- online safety messages targeted towards families and relatives.
- providing family learning courses in use of digital technologies and online safety
- the school will provide online safety information via their website and social media for the wider community

- supporting community groups, e.g. early years settings, childminders, youth/sports/voluntary groups to enhance their online safety provision

Technology

The school is responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. The school should ensure that all staff are made aware of policies and procedures in place on a regular basis and explain that everyone is responsible for online safety and data protection.

Filtering and Monitoring

The DfE guidance (for England) on filtering and monitoring in “Keeping Children Safe in Education” states:

“It is essential that governing bodies and proprietors ensure that appropriate filtering and monitoring systems are in place ...governing bodies and proprietors should be doing all that they reasonably can to limit children’s exposure to the ... risks from the school’s or college’s IT system. As part of this process, governing bodies and proprietors should ensure their school or college has appropriate filtering and monitoring systems in place and regularly review their effectiveness. They should ensure that the leadership team and relevant staff have an awareness and understanding of the provisions in place and manage them effectively and know how to escalate concerns when identified...”

The appropriateness of any filtering and monitoring systems are a matter for individual schools and colleges and will be informed in part, by the risk assessment required by the Prevent Duty. To support schools and colleges to meet this duty, the Department for Education has published filtering and monitoring standards...”

The school filtering and monitoring provision is agreed by senior leaders, governors and the IT Service Provider and is regularly reviewed (at least annually) and updated in response to changes in technology and patterns of online safety incidents/behaviours

Day to day management of filtering and monitoring systems requires the specialist knowledge of both safeguarding and IT staff to be effective. The DSL will have lead responsibility for safeguarding and online safety and the IT service provider will have technical responsibility

- the filtering and monitoring provision is reviewed (at least annually) by senior leaders, the Designated Safeguarding Lead and a governor with the involvement of the IT Service Provider.
- checks on the filtering and monitoring system are carried out by the IT Service Provider with the involvement of a senior leader, the Designated Safeguarding Lead and a governor, in particular when a safeguarding risk is identified, there is a change in working practice, e.g. remote access or BYOD or new technology is introduced e.g. using SWGfL Test Filtering.

Filtering

- the school manages access to content across its systems for all users. The filtering provided meets the standards defined in the UK Safer Internet Centre Appropriate filtering.
- access to online content and services is managed for all users
- illegal content (e.g., child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list and the police assessed list of unlawful terrorist content, produced on behalf of the Home Office. Content lists are regularly updated
- there are established and effective routes for users to report inappropriate content
- there is a clear process in place to deal with requests for filtering changes
- filtering logs are regularly reviewed by DSO and alert the school to breaches of the filtering policy, which are then acted upon.
- where personal mobile devices have internet access through the school network, content is managed in ways that are consistent with school policy and practice.
- access to content through non-browser services (e.g. apps and other mobile technologies) is managed in ways that are consistent with school policy and practice.

Monitoring

The school has monitoring systems in place to protect the school, systems and users:

- The school monitors all network use across all its devices and services.
- Monitoring reports are urgently picked up, acted on and outcomes are recorded by the Designated Safeguarding Lead, all users are aware that the network (and devices) are monitored.
- An appropriate monitoring strategy for all users has been agreed and users are aware that the network is monitored. There is a staff lead responsible for managing the monitoring strategy and processes.
- There are effective protocols in place to report abuse/misuse. There is a clear process for prioritising response to alerts that require rapid safeguarding intervention. Management of serious safeguarding alerts is consistent with safeguarding policy and practice
- Technical monitoring systems are up to date and managed and logs/alerts are regularly reviewed and acted upon.

The school follows the UK Safer Internet Centre Appropriate Monitoring guidance and protects users and school systems through the use of the appropriate blend of strategies strategy informed by the school's risk assessment.

- physical monitoring (adult supervision in the classroom)
- internet use is logged, regularly monitored and reviewed
- filtering logs are regularly analysed and breaches are reported to senior leaders
- pro-active alerts inform the school of breaches to the filtering policy, allowing effective intervention.

- where possible, school technical staff regularly monitor and record the activity of users on the school technical systems

Technical Security

The school technical systems will be managed in ways that ensure that the school meets recommended technical requirements there will be regular reviews and audits of the safety and security of school technical systems

- servers, wireless systems and cabling are securely located and physical access restricted
- there are rigorous and verified back-up routines, including the keeping of network-separated (air-gapped) copies off-site or in the cloud, (this is good practice in helping to prevent loss of data from ransomware attacks).
- all users have clearly defined access rights to school technical systems and devices. Details of the access rights available to groups of users will be recorded by the Network Manager (or other person) and will be reviewed, at least annually, by the Online Safety Group
- all users (adults and learners) have responsibility for the security of their username and password and must not allow other users to access the systems using their log on details. Users must immediately report any suspicion or evidence that there has been a breach of security.
- all school networks and system will be protected by secure passwords. Passwords must not be shared with anyone. All users will be provided with a username and password.
- the master account passwords for the school systems are kept in a secure place, e.g. school safe.
- passwords should be long.
- The Telford Langley School is responsible for ensuring that all software purchased by and used by the school is adequately licenced and that the latest software updates (patches) are applied.
- an appropriate system is in place for users to report any actual/potential technical incident/security breach to the relevant person, as agreed)
- appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems and devices from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up-to-date endpoint (anti-virus) software.
- an agreed policy is in for the provision of temporary access of 'guests', (e.g., trainee teachers, supply teachers, visitors) onto the school systems
- an agreed policy is in place regarding the extent of personal use that users (staff / learners / community users) and their family members are allowed on school devices that may be used out of school
- an agreed policy is in place that allows staff to/forbids staff from downloading executable files and installing programmes on school devices

- an agreed policy is in place regarding the use of removable media (e.g., memory sticks/CDs/DVDs) by users on school devices.
- systems are in place that prevent the unauthorised sharing of personal data unless safely encrypted or otherwise secured.

Mobile technologies

The DfE guidance “Keeping Children Safe in Education” states:

“The school or college should have a clear policy on the use of mobile and smart technology. Amongst other things this will reflect the fact many children have unlimited and unrestricted access to the internet via mobile phone networks (i.e. 3G, 4G and 5G). This access means some children, whilst at school or college, sexually harass, bully, and control others via their mobile and smart technology, share indecent images consensually and non-consensually (often via large chat groups) and view and share pornography and other harmful content. Schools and colleges should carefully consider how this is managed on their premises and reflect this in their mobile and smart technology policy and their child protection policy.”

Mobile technology devices may be school owned/provided or personally owned and might include smartphone, tablet, wearable devices, notebook/laptop or other technology that usually has the capability of utilising the school’s wireless network. The device then has access to the wider internet which may include the school learning platform and other cloud-based services such as e-mail and data storage.

The school acceptable use agreements for staff, learners, parents, and carers outline the expectations around the use of mobile technologies.

The school allows:

	School devices			Personal devices		
	School owned for individual use	School owned for multiple users	Authorised device	Student owned	Staff owned	Visitor owned
Allowed in school	Yes	Yes	Yes	Yes	Yes	Yes
Full network access	Yes	Yes	Yes	No	Yes	No

School owned/provided devices:

- to whom they will be allocated
- where, when and how their use is allowed – times/places/in/out of school
- if personal use is allowed
- levels of access to networks/internet (as above)
- management of devices/installation of apps/changing of settings/monitoring

- network/broadband capacity
- technical support
- filtering of devices
- access to cloud services
- use on trips/events away from school
- data protection
- taking/storage/use of images
- exit processes, what happens to devices/software/apps/stored data if user leaves the school
- liability for damage
- staff training.

Personal devices

- which users are allowed to use personal mobile devices in school (staff/learners/visitors)
- restrictions on where, when and how they may be used in school
- if used in support of learning, how staff will plan their lessons around the potential variety of device models and different operating systems
- storage
- whether staff will be allowed to use personal devices for school business
- levels of access to networks/internet (e.g., access, or not, to internet/guest wi-fi/network)
- network/broadband capacity
- technical support
- filtering of the internet connection to these devices and monitoring the access
- management of software licences for personally owned devices.
- data protection
- taking/storage/use of images
- liability for loss/damage or malfunction following access to the network (likely to be a disclaimer about school responsibility)
- identification/labelling of personal devices
- how visitors will be informed about school requirements
- how education about the safe and responsible use of mobile devices is included in the school online safety education programmes
- how misuse will be dealt with

Social media

Expectations for teachers' professional conduct are set out in the DfE Teachers Standards but all adults working with children and young people must understand that the nature and responsibilities of their work place them in a position of trust and that their conduct should reflect this.

All schools and local authorities have a duty of care to provide a safe learning environment for learners and staff. Schools could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, bully online, discriminate on the grounds of sex, race, or disability or who defame a third party may render the school liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to learners through:

- ensuring that personal information is not published
- education/training being provided including acceptable use, age restrictions, social media risks, digital and video images policy, checking of settings, data protection and reporting issues
- clear reporting guidance, including responsibilities, procedures and sanctions
- risk assessment, including legal risk
- guidance for learners, parents/carers

School staff should ensure that:

- no reference should be made in social media to learners, parents/carers or school staff
- they do not engage in online discussion on personal matters relating to members of the school community
- personal opinions should not be attributed to the school
- security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information
- they act as positive role models in their use of social media

When official school social media accounts are established, there should be:

- a process for approval by senior leaders
- clear processes for the administration, moderation, and monitoring of these accounts – involving at least two members of staff
- a code of behaviour for users of the accounts
- systems for reporting and dealing with abuse and misuse
- understanding of how incidents may be dealt with under school disciplinary procedures.

Personal use

- personal communications are those made via personal social media accounts. In all cases, where a personal account is used which associates itself with, or impacts on, the school it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy
- personal communications which do not refer to or impact upon the school are outside the scope of this policy
- where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
- *the school permits reasonable and appropriate access to personal social media sites during school hours*

Monitoring of public social media

- As part of active social media engagement, the school may pro-actively monitor the Internet for public postings about the school
- the school should effectively respond to social media comments made by others according to a defined policy or process
- when parents/carers express concerns about the school on social media we will urge them to make direct contact with the school, in private, to resolve the matter. Where this cannot be resolved, parents/carers should be informed of the school complaints procedure.

Digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and learners instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents/carers and learners need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for online bullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees.

The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm

- the school may use live-streaming or video-conferencing services in line with national and local safeguarding guidance / policies.
- when using digital images, staff will inform and educate learners about the risks associated with the taking, use, sharing, publication and distribution of images.
- staff/volunteers must be aware of those learners whose images must not be taken/published. Those images should only be taken on school devices. The personal devices of staff should not be used for such purposes
- in accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other *learners* in the digital/video images
- staff are allowed to take digital/video images to support educational aims with a school authorised camera, but must follow school policies concerning the sharing, storage, distribution and publication of those images
- care should be taken when sharing digital/video images that learners are appropriately dressed
- learners must not take, use, share, publish or distribute images of others without their permission

- photographs published on the website, or elsewhere that include learners will be selected carefully and will comply with Online Safety Policy
- learners' full names will not be used anywhere on a website or blog, particularly in association with photographs
- written permission from parents or carers will be obtained before photographs of learners are taken for use in school or published on the school website/social media
- parents/carers will be informed of the purposes for the use of images, how they will be stored and for how long – in line with the school data protection policy
- images will be securely stored in line with the school retention policy

Online Publishing

The school communicates with parents/carers and the wider community and promotes the school through:

- Public-facing website
- Social media
- Online newsletters

The school ensures that online safety policy has been followed in the use of online publishing e.g., use of digital and video images, copyright, identification of young people, publication of school calendars and personal information – ensuring that there is least risk to members of the school community, through such publications.

Where learner work, images or videos are published, their identities are protected, and full names are not published.

The school public online publishing provides information about online safety e.g., publishing the schools Online Safety Policy and acceptable use agreements; curating latest advice and guidance; news articles etc, creating an online safety page on the school website.

The website includes an online reporting process for parents and the wider community to register issues and concerns to complement the internal reporting process

Data Protection

Personal data will be recorded, processed, transferred and made available according to the current data protection legislation.

The school:

- has a Data Protection Policy.
- implements the data protection principles and can demonstrate that it does so
- has paid the appropriate fee to the Information Commissioner's Office (ICO)
- has appointed an appropriate Data Protection Officer (DPO) who has effective understanding of data protection law and is free from any conflict of interest.
- has a 'Record of Processing Activities' in place and knows exactly what personal data is held, where, why and which member of staff has responsibility for managing it

- the Record of Processing Activities lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis is listed
- has an 'information asset register' in place and knows exactly what personal data is held, where, why and which member of staff has responsibility for managing it
- information asset register lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis will have also been listed
- will hold the minimum personal data necessary to enable it to perform its function and will not hold it for longer than necessary for the purposes it was collected for. The school 'retention schedule' supports this
- data held is accurate and up to date and is held only for the purpose it was held for. Systems are in place to identify inaccuracies, such as asking parents to check emergency contact details at suitable intervals
- provides staff, parents, volunteers, teenagers, and older children with information about how the school looks after their data and what their rights are in a clear Privacy Notice (see Privacy Notice section in the appendix)
- has procedures in place to deal with the individual rights of the data subject,
- carries out Data Protection Impact Assessments (DPIA) where necessary e.g. to ensure protection of personal data when accessed using any remote access solutions, or entering into a relationship with a new supplier
- has undertaken appropriate due diligence and has data protection compliant contracts in place with any data processors
- understands how to share data lawfully and safely with other relevant data controllers.
- has clear and understood policies and routines for the deletion and disposal of data
- reports any relevant breaches to the Information Commissioner within 72hrs of becoming aware of the breach as required by law. It also reports relevant breaches to the individuals affected as required by law. In order to do this, it has a policy for reporting, logging, managing, investigating and learning from information risk incidents
- has a Freedom of Information Policy which sets out how it will deal with FOI requests
- provides data protection training for all staff at induction and appropriate refresher training thereafter. Staff undertaking particular data protection functions, such as handling requests under the individual's rights, will receive training appropriate for their function as well as the core training provided to all staff

When personal data is stored on any mobile device or removable media the:

- data will be encrypted, and password protected.
- device will be password protected.
- device will be protected by up-to-date endpoint (anti-virus) software
- data will be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete.

Staff must ensure that they:

- at all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse
- can recognise a possible breach, understand the need for urgency and know who to report it to within the school
- can help data subjects understand their rights and know how to handle a request whether verbal or written and know who to pass it to in the school
- only use encrypted data storage for personal data
- will not transfer any school personal data to personal devices.
- use personal data only on secure password protected computers and other devices, ensuring that they are properly “logged-off” at the end of any session in which they are using personal data
- transfer data using encryption, a secure email account (where appropriate), and secure password protected devices.

Outcomes

The impact of the Online Safety Policy and practice is regularly evaluated through the review/audit of online safety incident logs; behaviour/bullying reports; surveys of staff, learners; parents/carers and is reported to relevant groups:

- there is balanced professional debate about the evidence taken from the reviews/audits and the impact of preventative work e.g., online safety education, awareness, and training
- there are well-established routes to regularly report patterns of online safety incidents and outcomes to school leadership and Governors
- parents/carers are informed of patterns of online safety incidents as part of the school’s online safety awareness raising
- online safety (and related) policies and procedures are regularly updated in response to the evidence gathered from these reviews/audits/professional debate
- the evidence of impact is shared with other schools, agencies and LAs to help ensure the development of a consistent and effective local online safety strategy.

DRAFT

A1 Learner Acceptable Use Agreement Template

School policy

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe access to these digital technologies.

This acceptable use agreement is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and will have good access to digital technologies to enhance their learning and will, in return, expect the *learners* to agree to be responsible users.

Acceptable Use Agreement

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users.

For my own personal safety:

- I understand that the schools will monitor my use of the systems, devices and digital communications.
- I will keep my username and password safe and secure – I will not share it, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will be aware of "stranger danger", when I am communicating on-line.
- I will not disclose or share personal information about myself or others when on-line (this could include names, addresses, email addresses, telephone numbers, age, gender, educational details, financial details etc.)
- If I arrange to meet people off-line that I have communicated with on-line, I will do so in a public place and take an adult with me.
- I will immediately report any unpleasant or inappropriate material or messages or anything that makes me feel uncomfortable when I see it on-line.

I understand that everyone has equal rights to use technology as a resource and:

- I understand that the school's systems and devices are primarily intended for educational use and that I will not use them for personal or recreational use unless I have permission.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not use the school's systems or devices for on-line gaming, on-line gambling, internet shopping, file sharing, or video broadcasting (e.g. YouTube), unless I have permission of a member of staff to do so
- I will act as I expect others to act toward me:

- I will respect others' work and property and will not access, copy, remove or otherwise alter any other user's files, without the owner's knowledge and permission.
- I will be polite and responsible when I communicate with others, I will not use strong, aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will not take or distribute images of anyone without their permission.

I recognise that the school has a responsibility to maintain the security and integrity of the technology it offers me and to ensure the smooth running of the school:

- I will only use my own personal devices (mobile phones/USB devices etc.) in school if I have permission. I understand that, if I do use my own devices in the school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment.
- I understand the risks and will not try to upload, download or access any materials which are illegal or inappropriate or may cause harm or distress to others, nor will I try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.
- I will not open any hyperlinks in emails or any attachments to emails, unless I know and trust the person/organisation who sent the email, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will not install or attempt to install or store programmes of any type on any school device, nor will I try to alter computer settings.
- I will only use social media sites with permission and at the times that are allowed

When using the internet for research or recreation, I recognise that:

- I should ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not try to download copies (including music and videos)
- When I am using the internet to find information, I should take care to check that the information that I access is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.

I understand that I am responsible for my actions, both in and out of school:

- I understand that the school also has the right to take action against me if I am involved in incidents of inappropriate behaviour, that are covered in this agreement, when I am out of school and where they involve my membership of the school community (examples would be online-bullying, use of images or personal information).
- I understand that if I fail to comply with this acceptable use agreement, I may be subject to disciplinary action. This could include loss of access to the school network/internet, detentions, suspensions, contact with parents and in the event of illegal activities involvement of the police.

Please complete the sections on the next page to show that you have read, understood and agree to the rules included in the acceptable use agreement. If you do not sign and return this agreement, access will not be granted to school systems and devices.

Learner Acceptable Use Agreement Form

This form relates to the learner acceptable use agreement; to which it is attached.

Please complete the sections below to show that you have read, understood and agree to the rules included in the acceptable use agreement. If you do not sign and return this agreement, access will not be granted to school systems.

I have read and understand the above and agree to follow these guidelines when:

- I use the school's systems and devices (both in and out of school)
- I use my own devices in the school (when allowed) e.g. mobile phones, gaming devices USB devices, cameras etc.
- I use my own equipment out of the school in a way that is related to me being a member of this school e.g. communicating with other members of the school, accessing school email, VLE, website etc.

A2 Staff (and Volunteer) Acceptable Use Policy Agreement Template

School Policy

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe access to the internet and digital technologies at all times.

This acceptable use policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities for learning and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users. I recognise the value of the use of digital technology for enhancing learning and will ensure that learners receive opportunities to gain from the use of digital technology. I will, where possible, educate the young people in my care in the safe use of digital technology and embed online safety in my work with young people.

For my professional and personal safety:

- I understand that the school will monitor my use of the school digital technology and communications systems.
- I understand that the rules set out in this agreement also apply to use of these technologies (e.g. laptops, email, VLE etc.) out of school, and to the transfer of personal data (digital or paper based) out of school
- I understand that the school digital technology systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school.
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

I will be professional in my communications and actions when using school systems:

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and/or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital/video images. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (e.g. on the school website/VLE) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use social networking sites in school in accordance with the school's policies.
- I will only communicate with learners and parents/carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any on-line activity that may compromise my professional responsibilities.

The school has the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

- When I use my mobile devices in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment. I will also follow any additional rules set by the school about such use. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses
- I will not use personal email addresses on the school's ICT systems.
- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, terrorist or extremist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless this is allowed in school policies.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School Personal Data Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based documents containing personal data must be held in lockable storage.
- I understand that data protection policy requires that any staff or learner data to which I have access, will be kept private and confidential, except when it is deemed

necessary that I am required by law or by school policy to disclose such information to an appropriate authority.

- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the online systems in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of the school:

- I understand that this acceptable use policy applies not only to my work and use of school's digital technology equipment in school, but also applies to my use of school systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school
- I understand that if I fail to comply with this acceptable use agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors/Trustees and/or the Local Authority and in the event of illegal activities the involvement of the police.

I have read and understand the above and agree to use the school digital technology systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

A3 School Policy – Online Safety Group Terms of Reference

1. Purpose

To provide a consultative group that has wide representation from the [schools] community, with responsibility for issues regarding online safety and the monitoring the online safety policy including the impact of initiatives.

2. Membership

2.1. The online safety group will seek to include representation from all stakeholders.

The composition of the group should include

- SLT member/s
- Child Protection/Safeguarding officer
- Teaching staff member
- Support staff member
- Online safety coordinator (not ICT coordinator by default)
- Governor
- Parent/Carer
- ICT Technical Support staff (where possible)
- Community users (where appropriate)
- *Learner representation – for advice and feedback. Learner voice is essential in the make-up of the online safety group, but learners would only be expected to take part in committee meetings where deemed relevant.*

2.2. Other people may be invited to attend the meetings at the request of the Chairperson on behalf of the committee to provide advice and assistance where necessary.

2.3. Committee members must declare a conflict of interest if any incidents being discussed directly involve themselves or members of their families.

2.4. Committee members must be aware that many issues discussed by this group could be of a sensitive or confidential nature

2.5. When individual members feel uncomfortable about what is being discussed they should be allowed to leave the meeting with steps being made by the other members to allow for these sensitivities

3. Chairperson

The Committee should select a suitable Chairperson from within the group. Their responsibilities include:

- Scheduling meetings and notifying committee members;
- Inviting other people to attend meetings when required by the committee;
- Guiding the meeting according to the agenda and time available;
- Ensuring all discussion items end with a decision, action or definite outcome;
- Making sure that notes are taken at the meetings and that these with any action points are distributed as necessary

4. Duration of Meetings

Meetings shall be held **every term** for a period of 1 hour(s). A special or extraordinary meeting may be called when and if deemed necessary.

5. Functions

These are to assist the Online Safety Lead (or other relevant person) with the following

- To keep up to date with new developments in the area of online safety
- To (at least) annually review and develop the online safety policy in line with new technologies and incidents
- To monitor the delivery and impact of the online safety policy
- To monitor the log of reported online safety incidents (anonymous) to inform future areas of teaching/learning/training.
- To co-ordinate consultation with the whole schools community to ensure stakeholders are up to date with information, training and/or developments in the area of online safety. This could be carried out through [add/delete as relevant]:
 - Staff meetings
 - Learner forums (for advice and feedback)
 - Governors meetings
 - Surveys/questionnaires for learners, parents/carers and staff
 - Parents evenings
 - Website/VLE/Newsletters
 - Online safety events
 - Internet Safety Day (annually held on the second Tuesday in February)
 - Other methods
- To ensure that monitoring is carried out of Internet sites used across the schools
- To monitor filtering/change control logs (e.g. requests for blocking/unblocking sites).
- To monitor the safe use of data across the schools
- To monitor incidents involving cyberbullying for staff and learners

6. Amendments

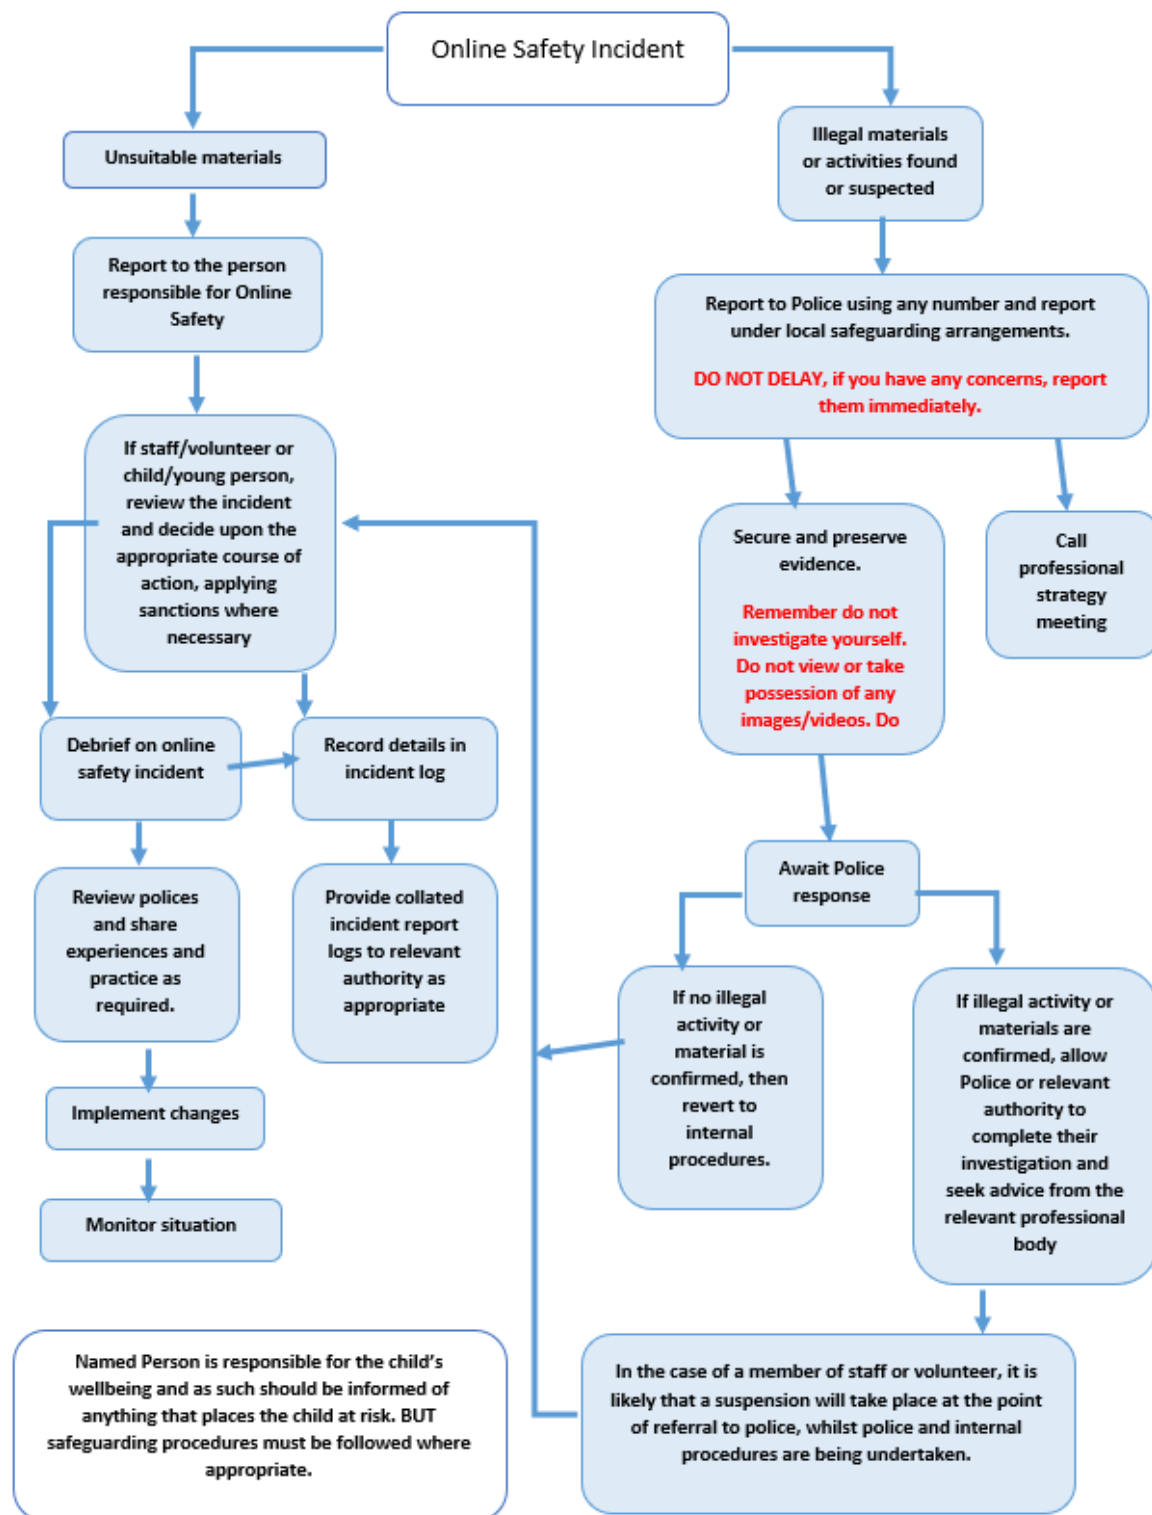

The terms of reference shall be reviewed annually from the date of approval. They may be altered to meet the current needs of all committee members, by agreement of the majority. The above Terms of Reference for [The Telford Langley School](#) have been agreed
