1. Aim of the Plan

The aims of this Accessibility Plan are to ensure that The Telford Langley School continues to work towards increasing the accessibility of provision for all students, staff and visitors to the school. The Accessibility Plan will contain relevant actions to:

- Increase the extent to which disabled students can participate in the curriculum
- Improve the physical environment of the school to enable disabled students to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled students

Our school aims to treat all its students fairly and with respect. This involves providing access and opportunities for all students without discrimination of any kind. The Telford Langley School is committed to a fair and equal treatment of all individuals able bodied or disabled and, on a continuous basis, will work towards improving access to the physical environment, to the curriculum and to the provision of information in order to ensure access for all.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan. We work closely with the sensory support service to ensure that we are informed of any difficulties that students with VI or HI have in accessing the school site.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, this procedure sets out the process for raising these concerns.

We have included a range of stakeholders in the development of this accessibility plan, including students, parents/carers, staff and governors of the school.

2. Legislation and Guidance

This document meets the requirements of schedule 10 of the Equality Act 2010 and the Department for Education (DfE) guidance for schools on the Equality Act 2010. The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.

Under the Special Educational Needs and Disability (SEND) Code of Practice, 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for students with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled student faces in comparison with non-disabled students. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

Targets	Tasks	Timescale	Resources	Responsibility
Increasing access to enable all pupils to access the school curriculum	1. Regular examination of the needs of the current school population and the transition/admissions coordinator to raise any issues regarding future pupils.
